Overland Model 20-25 £295

The Most Powerful Low-Priced Car. The new series Overland has more power than any other car selling for so low a figure.

Yet power is but one of its many desirable features. Its economy will surprise you. Think of 25 to 30 miles on a gallon of petrol.

In appearance and performance it compares favourably with cars selling at double its price. For this newest Overland is a real family car. It seats five passengers comfortably.

It has very practical advantage and convenience of the high-priced cars. This is the type of car you have been looking for at a price that appeals to you.

Ask us for a demonstration. Let us show you why this car is the greatest motor car value of the year. All Overland cars have high-tension magнето ignition.

The Willys-Knight five-passenger touring car has 114-inch wheelbase and Knight type engine. £475 and £495.

GARRATT'S LTD., 173-5 CASTLEREAGH-ST. SYDNEY. WILLYS-OVERLAND, Toledo, Ohio, Manufacturers of Overland Cars.

IRRITATING SKIN TROUBLE

Felt like Tearing Flesh to Pieces. ANOTHER ZAM-BUK TRIUMPH!

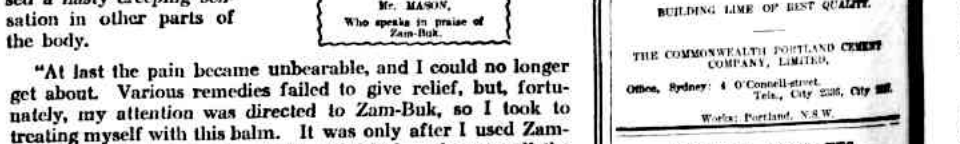

ZAM-BUK has an unequalled record in the cure of Eczema because it gets to the root of the disease.

Through my blood being overheated I suffered from a serious outbreak of eczema on both feet. The disease started in the form of a pimply rash of a watery nature.

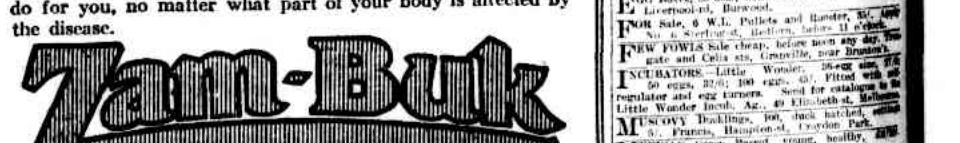

Eventually my knee became in a red-raw condition. The itching was so great that I could have torn the flesh to bits. When I rubbed the affected surface there was a burning feeling that caused a nasty creeping sensation in other parts of the body.

"At last the pain became unbearable, and I could no longer get about. Various remedies failed to give relief, but, fortunately, my attention was directed to Zam-Buk, so I took to treating myself with this balm. It was only after I used Zam-Buk that I had any ease at all. Zam-Buk took away all the irritation, and cooled and soothed the raw surface.

"So satisfactory did this treatment prove that I kept it up until the sores ceased to discharge, and natural healing then set in. After using Zam-Buk a few more times my feet were completely healed." What Zam-Buk did for Mr. Mason it will do for you, no matter what part of your body is affected by the disease.

ZAM-BUK is a soothing, healing, antiseptic skin dressing for cuts, burns, bruises, scalds, scratches, abrasions, rashes, peeling skin, irritations, itching, prickles, and other painful skin conditions.

ZAM-BUK is obtainable from all chemists and stores at 1/6 per pot, or direct from C. E. Fulford (Aust.), Ltd.

RUSSIAN MUTINY

KALEDIN HOLDING OUT

LONDON, Sept. 17. Telegrams from Petrograd state that the general of generals and other supporters of the Government will continue everywhere. The Government's military administration has telegraphed to the Government that General Kaledin is ready to submit, but that he demands the repeal of the order for his arrest and trial.

Other reports show that General Kaledin is continuing his agitation and counter-attacking Cossacks on the road to Petrograd.

The Directory will hold office only until the democratic conference of the Workers' and Soldiers' delegates, assembled in Moscow, will decide the new form of government. The chief task before the Directory is to organize authority and settle General Kaledin's mutiny. Mr. Kerensky will remain at headquarters, while the Council of Ministers, and all Cabinet Councils are held at headquarters.

United States officials continue to receive reassuring advice from Russia showing there is every reason to believe the military and political situation continues to improve.

The Russian Embassy in Washington denies that the Maximilians and other radical parties are in favour of a separate peace.

THE RIGA BATTLE.

A Russian official message says:—We have occupied a wood north-east of Priedelbatsk.

VICTORY CERTAIN.

SMUTS'S CONFIDENCE.

WHY GERMANY DESIRES PEACE.

General Smuts (who was South Africa's delegate to the Imperial War Conference, and who is now an unofficial member of the British War Cabinet) has expressed his confidence in the superiority of our military command to the German. He said: "We have adopted tactics which may not be shown, but the results are mathematically certain." He said that the German army is not the superior of our military command to the German. He said: "We have adopted tactics which may not be shown, but the results are mathematically certain." He said that the German army is not the superior of our military command to the German.

WESTERN FRONT

LONDON, Sept. 16. Nothing of importance has occurred on the Western front, according to the following communications:—

BRITISH.

TUESDAY, ISSUED 11 P.M.

Our north country troops raided Inverness Cope and took 13 prisoners. We improved our positions slightly south of St. Julien. We drove off raiders south of Mercur.

There is great reciprocal artillery activity in the Ypres sector.

Three German aeroplanes were driven down on Monday. The combats were few. Only a small number of Germans were in the air. Three of our machines are missing.

FRENCH.

TUESDAY, ISSUED 4.15 P.M.

South of the Meuse, after a violent bombardment, hostile detachments approached our lines near the Neufchateau road. A sharp fight ensued in our advanced trenches, from which the enemy was completely repulsed with appreciable loss. We took some prisoners.

TUESDAY, ISSUED 10.35 P.M.

Fairly lively artillery action has occurred in the Champagne region, between the Meuse and the Aisne.

The artillery duel is somewhat violent on the right bank of the Meuse, to the north of Hill 344.

AMERICANS EXPECTED.

The "Morning Post" correspondent at British Headquarters says that the American High Command shows concern at the importance of America's entry into the fighting on the Western front. A German sergeant's diary says: "We are supposed to be waiting for the Americans. They are expected in two divisions of Portuguese on our right. The man who brings in the first American, dead or alive, is promised the Iron Cross, 400 marks (£20), and a fortnight's leave."

The diary describes in detail the destruction of an industrial town in the front line of the Hindenburg defence, which has been transformed into a mass of ruins. The Catholics have been placed in its cellars, streets and squares have been torn up, and war establishments erected. Civilians were ordered to evacuate the town, taking only a few personal belongings.

The Germans searched for hidden treasure, and hoarded gold watches and ornaments in their dug-outs, awaiting an opportunity to send them to the front. The Catholics were sacked, but the loot was gladly exchanged for nourishing food, the bad German bread causing a great deal of suffering.

The diary describes the waste inflicted by our artillery and infantry.

It is reported from American that the Germans are constructing a new line of defence, and are particularly large ones at St. Denis Westerm. The Allies continue their raids, with good results. Several military trains were hit in the last raid, including a heavy one, which exploded, causing many deaths.

ROUMANIAN ATTACKS.

A Russian official message, issued at 4 p.m. on Tuesday, stated: The Roumanians have captured a sector of the enemy position in the region of Vargha.

A German official message on Tuesday afternoon stated: Several Roumanian attacks near Varnitza and Muncial failed with heavy losses.

MR. HOLMAN IN UNITED STATES.

AMERICA AND AUSTRALIA.

NEW YORK, Sept. 16. Mr. W. A. Holman, Premier of New South Wales, addressed at the Hotel Gotham, the guest of Lord Northcote, the English ambassador, who is now at the head of the British mission-buying staff in America. Mr. Holman said that a peace now would turn the countries into armed camps. No peace was possible until the people of the world were free from the shadow of the sword. He said that the people of the world were free from the shadow of the sword.

Mr. Holman declared that Australia valued American friendship as one of the most precious assets in her national development. He said that the people of the world were free from the shadow of the sword.

Mr. Holman declared that Australia valued American friendship as one of the most precious assets in her national development. He said that the people of the world were free from the shadow of the sword.

"ENGLAND REMAINS UNCONQUERED."

LONDON, Sept. 16. The Zurich correspondent of the "Daily Chronicle" reports that Herr Erberger, leader of the German Centre party, who moved the "peace without annexation or indemnity" resolution, which the Reichstag carried, in a speech to his constituents said that the practical effect of the submarine war in England was not noticeable. England remained unconquered.

Before voting on the new German war loan, continued Herr Erberger, the Reichstag should consider if there was any way to shorten the war. The four years of war would cost £2,500,000,000, and 1200 men would be killed daily. The world's harvest was bad, and there was a general shortage of coal, fat, and leather, which would cause greater hardship this winter than in the past. "We cannot have a peace dependent on night and oppression," he said.

Herr Erberger stated that Germany's answer to the Pope's Peace Note would greatly disappoint the pan-Germans. It would be a big stride towards a world peace, based on the Reichstag's peace resolution. A basic condition would be that not one nation must be subdued by another.

Germany's reported decision to give up Belgium continues to be hotly discussed by the German newspapers.

Count Reventlow, in an article in the "Reichs-Zeitung" (which was subsequently suppressed), said: If the report is true, Germany's fate is sealed. England will be proved to have been right when she said "Germany might win the battle, but England will win the war."

The "Reichs-Zeitung" declares that Herr Erberger's speech proves that the Government's policy is not to surrender. It is a policy of peace, but not of submission.

The "Reichs-Zeitung" declares that Herr Erberger's speech proves that the Government's policy is not to surrender. It is a policy of peace, but not of submission.
